

Meeting on Quantum Gravity, Tuesday 9.1.2018 (Jerusalem)

at Danciger B seminar room*

10:30 Welcome refreshments

10:45 Piran

TBA

11:15 Brustein

What's inside a black hole?

11:45 break

12:00 Itzhaki

A stringy glimpse into the black hole horizon

12:30 Lunch (Belgium house)

14:00 Lifschytz

Is there a regular quantum theory of gravity?

14:30 Unruh

Wheeler's spactime foam and the exponential expansion of the universe

- Danciger B seminar room can be reached by taking a metal bridge from nearby the Kaplun building to Danciger B and then going down the stairs to the ground floor.
